McIntyre, Chief of Staff, District Department of Transportation</p>

<p>9:00-9:30</p>	<p>Presentation: California High Speed Rail Project Update</p> <p>The California High-Speed Rail Authority (Authority) is responsible for planning, designing, building and operation of the first high-speed rail system in the nation. California high-speed rail will connect the mega-regions of the state, contribute to economic development and a cleaner environment, create jobs and preserve agricultural and protected lands. The system will run from San Francisco to the Los Angeles basin in under three hours at speeds capable of over 200 miles per hour. The system will eventually extend to Sacramento and San Diego, totaling 800 miles with up to 24 stations.</p> <p>Speaker: Dan Richard, Chair, California High Speed Rail Authority Board</p>
<p>9:30-10:00</p>	<p>Fireside Chat: Advancing the Dumbarton Transportation Corridor</p> <p>The San Mateo County (California) Transit District (SamTrans) Board of Directors earlier this year entered into a development partnership with Facebook and Plenary Group, an agreement that could see major improvements to the Dumbarton Transportation Corridor connecting the social media giant's and other Silicon Valley-area workers to the east side of San Francisco Bay.</p> <p>Speakers: Sia Kusha, Group Head Project Development & Partnering, Plenary Group Winsome Bowen, Head of Regional Transportation Strategy, Facebook</p>
<p>10:00-10:45</p>	<p>Panel: Cities 2.0</p> <p>New mobility solutions are quickly being deployed in cities and towns. Examples include ride hailing, ride sharing, bicycle share, and super advanced (e.g. Hyperloop). Autonomous vehicles (C/AV) will ultimately become a central piece of the new mobility. How are governments remodeling existing infrastructure and policy to accommodate? The key ingredients to designing a successful city.</p> <p>Moderator: Mark Romoff, President and Chief Executive 4--Officer, The Canadian Council for Public-Private Partnerships (CCPPP)</p> <p>Speakers: Colin F. Peppard, Senior Director, Office of Extraordinary Innovation, LA Metro Diana Kotler, Executive Director, Anaheim Transportation Network</p>

11:15-11:35	<p>Presentation: A \$2 billion puzzle</p> <p>It took three new laws, multiple political hurdles, toll lanes and TIFIA – on top of local, state and federal financing – to make the largest highway project under construction in California a reality. Orange County Transportation Authority CEO Darrell E. Johnson details how the pieces fit together and the challenges overcome to break ground on the I-405 Improvement Project.</p> <p>Speaker: Darrell E. Johnson, CEO, Orange County Transportation Authority</p>
11:35-11:55	<p>Presentation: Changing the way roads are built: an Idaho Story</p> <p>Idaho's state transportation system consists of more than 12,200 miles (19,600 km) (lane miles) of roads, more than 1,800 bridges, approximately 1,630 miles (2,620 km) of rail lines, 126 public-use airports, and the Port of Lewiston. The agency is also responsible for 29 rest areas and 12 ports of entry.</p> <p>Speaker: Brian Ness, Transportation Director, Idaho Department of Transportation</p>
11:55-12:10	<p>Presentation: A new approach to private infrastructure</p> <p>Texas Central is a Texas-based private company, employing a market-led approach. Unlike other high-speed rail projects, they are backed by private investors, not public funds. Texas Central is developing a new high-speed passenger rail system that will connect Dallas/Fort Worth and Houston using a proven, world-class technology that will provide a travel time of less than 90 minutes.</p> <p>Speaker: Holly Reed, Managing Director of External Affairs, Texas Central Partners, LLC</p>

12:10-12:30	<p>Presentation: Metrolink’s vision for the future of regional rail in Southern California</p> <p>Metrolink is a commuter rail system in Southern California consisting of seven lines and 62 stations operating on 534 miles (859 km) of rail network. The system operates in Los Angeles, Orange, Riverside, San Bernardino, and Ventura counties, as well as to Oceanside in San Diego County.</p> <p>Speaker: Elizabeth Lun, Interim Deputy Chief Operating Officer, Planning and Project Delivery, Metrolink</p>
12:30-1:15	<p>Panel: Delivery models for large infrastructure projects</p> <p>Successful large project delivery. Public owners are often challenged with delivering large projects, which tend to be beholden to political cycles. What are the most recent challenges/lessons learned in procuring larger projects? How best do you keep to schedule, identify best delivery mechanism at RFQ, and leverage efficiency and innovation from the private sector? Why are projects so much larger in the US on average than elsewhere? Programs, Projects, and Segmenting for the market. Understanding the risk of size and scale with P3s.</p> <p>Moderator: Melanie Vander Valk, VP P3 Concessions, Halmar International</p> <p>Panelists: Carlos Rios, Principal Transportation Engineer - Capital Projects, Los Angeles Department of Transportation John R.
